Sub: Appointment as Research Assistant for NRB-funded project

Dear Sandeep,

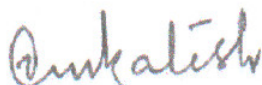

Based on a review of your credentials, I am pleased to appoint you as a Research Assistant for the project entitled "Channel sounding experiments to study doubly-spread underwater acoustic channels in shallow-waters". This is for the duration of the project, which is expected to last until Summer 2014. Your date of reporting is to work for this project is Oct 1 2012. You shall draw a monthly salary of Rs.10,000, and shall be on probation for the first three months. If your performance is satisfactory, your employment under this project shall be regularized after 3 months.

Your goals in this project are as follows:

- 1) development of hardware electronics such as amplifiers and testing them with transducers for experimentation
- 2) interfacing data-acquisition devices such as NI-DAQs for high-frequency, multichannel sound transmission and reception
- 3) working with microcontroller kits to interface and program using suitable hardware & software platforms
- 4) maintaining the underwater tank facility for experimental work to be undertaken as part of this and other projects
- 5) performing underwater acoustic experiments in small, medium and large sized water bodies (tanks/ lakes/ pools etc) for sonars

Congratulations on being awarded this new assignment in the underwater acoustics program sponsored by the Naval Research Board at PESIT. I look forward to working with you in making this project a success.

Sincerely,

Dr. Venkatesh Vadde
Professor,
